i-FACTOR™
Peptide Enhanced Bone Graft

FDA APPROVED

ENHANCED, PREDICTABLE, PROVEN FUSION

i-FACTOR Bone Graft is the only biologic bone graft that combines a unique synthetic small peptide (P-15) and an anorganic bone mineral (ABM) to act as an attachment factor for osteogenic cells.

ATTRACT

P-15 facilitates and expedites ingrowth of bone by promoting the immigration of osteogenic cells.

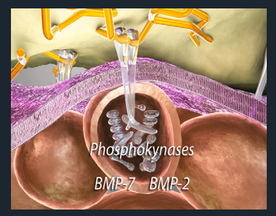

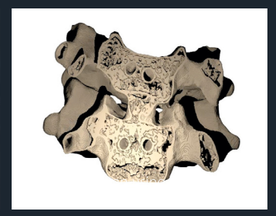

Pre-discharge scan using i-FACTOR Bone Graft.

ATTACH

The high affinity between osteogenic cells and P-15 enhances the physiological mechanism in which cells bind to i-FACTOR Bone Graft.

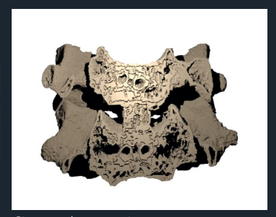

ATTRACT

P-15 enhances bone formation by facilitating cellular attachment which activates natural signalling, creating a microenvironment conducive to new bone formation.

Six-month scan using i-FACTOR Bone Graft.

JOURNAL OF ADVANCED SPINE SURGERY

Official Journal of the Korean Society for the Advancement of Spine Surgery

Aims & Scope

Journal of Advanced Spine Surgery (JASS), the official journal of the Korean Society for the Advancement of Spine Surgery (KOSASS), is a peer-reviewed journal which publishes articles related to basic and clinical researches of all fields of advanced spinal surgery.

The journal aims to promote communications among spine surgeons especially who are interested in advanced spine surgery and its related basic research. All manuscripts should be creative, informative and useful for the diagnosis and treatment of spine problems. Manuscripts regarding advanced spinal technology would be preferable. Every researcher who has interested in the aims and scope of Journal of Advanced Spine Surgery is encouraged to submit the papers from all over the world.

Copyrights © 2018 The Korean Society for the Advancement of Spine Surgery

Articles published in JASS are open-access, distributed under the terms of the Creative Commons Attribution License (http://creativecommons.org/ licenses/by/3.0/), which permits unrestricted use, distribution and reproduction in any medium, provided the original work is properly cited.

Submitting an article to JASS implies that the authors confirm that all authors read the article and approved of its publication, that it is not under consideration for publication elsewhere and that copyrights of all published materials, including figures, are owned by the Korean Society for the Advancement of Spine Surgery

Subscription Information

- KOSASS will send JASS for free to some important individuals and institutions. The subscription fee will be charged only for those issues that were requested by written order. The subscription fee includes postal and handling charges.
- For individual subscribers, the annual subscription fee is 20,000 Won (Korean) or 30 U.S. dollars (International). The subscription fee for a single issue is 10,000 Won (Korean) or 15 U.S. dollars (International). For institutional subscribers, there, there will be no subscription fee until 2015.
- To subscribe to JASS, please contact the editorial office for detailed information

깃털처럼 활기차게!

OPCs로 혈관과 림프관을 건강하게
내 몸이 가벼운 이유엔 엔테론!

포도씨에서 추출한 OPCs로 구성된 엔테론은 손발이 무겁고, 잘 붓는 등 가벼운 정맥, 림프 기능부전 관련증상부터 하지정맥류, 만성정맥 기능부전증, 자반증 등 질환치료까지 탁월한 효과를 가지고 있습니다.

증상 완화에서 치료까지 한번에
- 정맥림프기능부전과 관련된 하지둔중감, 통증, 하지불온증상 등의 개선에 좋습니다.
- 망막,맥락막 순환과 관련된 장애치료시 특정 원인요법과 병용이 가능합니다.
- 유방암 치료로 인한 림프부종의 보조요법제로 물리치료시 병용이 가능합니다.
